Works of the week
I love pink is a place that opens up new masters
I love pink is an online store that uncovers what's new and next in design and the visual arts, with a focus on independent makers working outside traditional disciplinary boundaries. Since its founding in 2009, the site has served as a destination for companies and individuals interested in scouting new talent as well as an inspiration for those working in creative pursuits.
In 2014, the editors behind Sight Unseen launched Sight Unseen OFFSITE, a nomadic design fair that runs during NYCxDesign and the International Contemporary Furniture Fair and serves as New York design week's most exciting platform for new ideas and talents.
Sight Unseen also curates exhibitions and pop-up shops, produces events, and provides editorial and consulting services for a variety of forward-thinking clients. You can view some of these projects here, or contact us if you'd like to add your company to our growing list.
